Introductory

The present volume for the year 1951 is the seventy-third edition of Henderson's Directory of Winnipeg, the first being published in 1878.

THE STREET AND AVENUE GUIDE gives the names of all streets and avenues arranged alphabetically, showing the location, number on the street and name of the occupant. The intersecting streets are shown in the order that they come.

◆ Denotes that someone living in the house is the owner.

☎ Indicates there is a telephone at that address.

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations commences on page 369

THE CLASSIFIED BUSINESS DIRECTORY at the back of the Book exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

ADVERTISING WINNIPEG

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city, the publishers have placed copies of this issue of the directory in libraries across the country where they are readily available for reference use by the public. There they serve as perpetual advertisements of Winnipeg, for business men the country over realize that the City Directory represents the community as it really is.

POPULATION OF GREATER WINNIPEG, 273,012

The Directory estimate of population is based on the actual number of individuals' names in the Alphabetical section of the Directory, with due allowance for children and for women whose names are not listed. The Winnipeg Directory covers considerable territory beyond, but tributary to, the city limits, which is canvassed in order that the names of all people employed or who purchase in Winnipeg may be obtained.

Respectfully, The Publishers,

HENDERSON DIRECTORIES LIMITED,

February, 1951

PUBLISHERS' NOTE

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

HENDERSON DIRECTORIES LIMITED,
PUBLISHERS.

WINNIPEG

CAPITAL OF THE PROVINCE OF MANITOBA

STATISTICAL INFORMATION

POPULATION—

Greater Winnipeg January 1951 (estimate), 373,012.

Greater Winnipeg Water District. Capacity: 85,000,000 gallons per day sufficient for a population of 850,000. Source: Shoal Lake on the Winnipeg River

City of Winnipeg

(Courtesy Manitoba Government Travel and Publicity Bureau)

HISTORY

The above is a fac-simile of the City Seal, adopted by Council, June 1st, 1874, the motto of which is, "Commerce, Prudence, Industry." The significance of the emblematry thereon may be described as follows:—

The Buffalo, the hardy, fearless, nomadic monarch of the plains, who had original possession and held sway where the City of Winnipeg now stands.

The Engine, the civilizing mechanism of man's ingenuity, displaced the buffalo, was the forerunner of prosperity, and is the means of social and commercial communication which the City enjoys with the world.

The Sheaves of Grain represent the source from which the prosperity of this City emanated and are emblematic of our City as the Gateway of the Golden West and as the greatest grain centre in the world.

The City of Winnipeg is the capital of the Province of Manitoba, and the Provincial Legislative Building and Grounds among the most beautiful on the continent.

The name WINNIPEG has the origin in the Indian Cree name given to the lake 40 miles north, meaning "Win" muddy, "nipee," water.

Winnipeg is situated in Latitude 49° 54' N., Longitude 97° 08' W., at the confluence of the Red and Assiniboine Rivers, 40 miles south of Lake Winnipeg and 60 miles north of the boundary line between Canada and the United States of America, almost midway between the Atlantic and Pacific Oceans and at an altitude of 760 feet above the seaboard level of New York.

It is the railway centre of Canada with all lines passing through it having workshops capable of manufacturing or maintaining all types of equipment.

Stevenson Airport located in the adjacent municipality of St. James and only fifteen minutes from downtown Winnipeg has been called the "Air Crossroads of the Continent." Developed to handle the largest and heaviest types of transports it takes its place among leading airports.

From a Hudsons Bay trading post (Fort Garry) in 1870, with a population of 215, Winnipeg has grown to the size and finish of a first-class city of 373,012 people. When the City was incorporated in 1873 there were 1,869 inhabitants. In 1878 steam railway connection from St. Paul, Minn., had reached a point just across the river from Winnipeg, and in 1884 railway communication from the east was established by the Canadian Pacific Railway. With the advent of railway connections a steady stream of travel and trade, with influx of population, was started and has resulted in the building up of a city of a size and importance that is exceeded by only three cities in the Dominion of Canada.

ORIGIN AND BACKGROUND

The history of Winnipeg is, in effect, the story of transportation and trade in Western Canada for the beginnings of the City and its environs lie back in the lusty days of the fur trade and the hardy voyageur. The eighteenth century French explorer, Sieur de la Verendrye, was probably the first white man to set foot in this region. Here, he established Fort Rouge about the year 1737.

This location became of strategic importance in the fur trade, as the easiest method of supply and communications south from the Hudson Bay and west from Montreal was by water route. In 1812, Lord Selkirk, a Scottish nobleman, obtained a vast land grant on the Red and Assiniboine rivers for the purpose of settlement.

Fort Garry, built in 1835, was the jumping off spot for the fur trader pushing west and north. Later, it was the base for the settler migrating into the vast plains and rolling parklands.

The colony developed and the line of communications gradually changed from the Hudson Bay route to follow the Red River south to the United States. By 1859 the Hudson's Bay Company was freighting in goods from the city of St. Paul in the State of Minnesota. In that same year the first steam boat service commenced on the Red River from Fort Garry to Georgetown, Minnesota, at the head of navigation on the river. The first railway engine in the west came by barge over this route in 1877.

The Province of Manitoba was formed in 1870 with its capital at Fort Garry. The district around Fort Garry came to be known as Winnipeg, and under this name it was incorporated as a city on November 8th, 1873, with a population of 1,869. Development of the new city was rapid.

The first shipment of wheat took place by river boat in 1878. In the fall of that year the first train ran between St. Boniface, across the river from Winnipeg, and St. Paul, Minnesota, providing rail transportation with eastern Canada, via the United States. By 1885 the first through train on the new transcontinental Canadian Pacific Railway line from Montreal arrived in Winnipeg.

There was a gradual flow of settlers into the west, but the flood tide came between the years 1900 and 1913, with a great influx of European and American immigrants. In the period of ten years from 1901 to 1911 the population of the metropolitan area increased by more than a hundred thousand. The requirements and demands of the increasing western population necessitated increased facilities for trade and commerce and for the gathering and distribution of capital. As early as 1884 there were 75 wholesale and jobbing houses in Winnipeg.

The area had become the distributing and commercial centre of the west and then, to meet the needs of commerce and the grain trade, it became the financial centre.

The growth of manufacturing and processing industries commenced as early as 1825, with the erection of a windmill to grind flour. By 1881 the colony was self-supporting in this commodity, and ten years later there were 18 windmills and two water-driven mills in the district.

The present flourishing needle trades industry commenced about 1895. Between 1900 and 1906 several small factories were in operation fabricating overalls,

CORNER OF PORTAGE AND MAIN STREET

workshirts and heavy knitted goods, in order to satisfy the demand for sturdy, warm work clothing. This industry has expanded to the point where its products, such as ladies' suits and sportswear compete with the best products of other North American garment centres, both in style and quality of workmanship.

The extensive meat packing industry grew from small meat processing plants set up in the 1890's. The opening of the St. Boniface stockyards, largest in the British Empire, in 1913, gave impetus to the industry, and by 1925 slaughtering and meat packing was the leading industry.

From a small beginning some 50 or 60 years ago, industry in the metropolitan area has flourished and developed until today there are approximately 1,300 manufacturing and processing establishments producing a large variety of commodities.

TRANSPORTATION

The position of the Metropolitan Area of Winnipeg in the geographical centre of Canada is such that it is the focal point for all roads, rail and air transportation routes crossing the dominion. Its location in the narrow area between Lake Winnipeg and the international border results in the convergence of rail and road routes through the Winnipeg district. As a consequence, Winnipeg is one of Canada's great railway centres. Similarly, the area is an important air centre being at major aerial cross roads of the North American continent. The Winnipeg district owes its dominant position in the West to the excellent transportation facilities with which it is endowed. From Winnipeg there radiates a network of 14 provincial main highways leading to all sections of the province and connecting with major routes of adjoining provinces and states. Three of these roads are concrete or asphalt and eight are gravelled highways. These roads carry a year-round traffic of public passenger and freight transit companies.

BUS SERVICE—

The Union Bus Terminal, located in the downtown shopping district of Winnipeg, provides centralized terminal facilities (i.e. loading platforms, rest-rooms, baggage service, restaurant, telegraph and telephone service), for passengers on the 15 bus lines operating in and out of the Metropolitan Area. From the Union Terminal there is an average of 90 scheduled trips every 24 hours. Mainline runs include 3 trips daily south to United States points (i.e. Minneapolis); 5 trips daily west to Vancouver and intermediate point; 3 trips weekly east to Port Arthur, and 3 weekly to Red Lake Mining district in Ontario. Express for rural areas is carried on most runs.

MOTOR TRUCK—

Motor carrier services in the Metropolitan Area facilitate speedy haulage of freight to and from all parts of the province. Seven truck terminals are located in the area, two of which are public and five privately operated. Twelve interstate and inter-provincial companies operate from, or through, the area. Over and above the numerous transfer and delivery units working in Greater Winnipeg there are roughly 800 licensed carriers maintaining service from country points into the Winnipeg district.

AIR TRANSPORT—

The Commercial airport for the metropolitan area is Stevenson Field located in the suburban municipality of St. James, four miles west of the downtown business district. The Airport is under the control of the St. James-Winnipeg Airport Commission. Convenient bus and taxi service connect it with all sections of the Metropolitan Area. The airport covers 1,475 acres and has three runways as follows.

Northwest - Southeast, concrete, 200 feet wide, 6,200 feet long.

North - South, concrete, 200 feet wide, 6,200 feet long

East - West, asphalt, 150 feet wide, 4,200 feet long.

The control tower operates on a 24-hour basis. Complete aircraft engineering and maintenance service is available at the field. Customs facilities are maintained at the field for aircraft coming in from the United States. On an average day there are a total of 150 flights in and out of the airport, 26 of which are scheduled arrivals and departures. The following schedule airlines operate from Stevenson Field:

Trans-Canada Air Lines—transcontinental flights carrying mail, passengers and express. The Winnipeg Metropolitan Area is Canadian Operational Headquarters for T.C.A.

Canadian Pacific Air Lines—connecting Winnipeg with Manitoba points and Red Lake mining district, mail, passengers and freight. C.P.A. Regional Operational Headquarters is situated here.

Northwest Airlines, Inc.—connecting Winnipeg with United States centres, via, Minneapolis. Mail, passengers and express. Canadian headquarters is located in Winnipeg.

Charter air service, using float planes, is available from Central Northern Airways, which has its head office in the City of Winnipeg. Charter land plane Service is to be had from Graffo Flying Service.

WATER TRANSPORT—

The Red River, flowing from south to north, is navigable by commercial river and lake boats from Winnipeg north to Lake Winnipeg. This route is used to haul lumber and fish from the northern lake regions and to supply communities and trading posts on Lake Winnipeg. The navigation season lasts from the beginning of June until the end of October.

RAILROAD FACILITIES—

As the railroad centre of Western Canada, the Metropolitan Area is well supplied by rail service. The trains of seven companies operate in and out of the region, viz., Canadian National Railways, Canadian Pacific Railway, Greater Winnipeg Water District Railway, Great Northern Railway, Northern Pacific Railway, Soo Line Railroad, and the Midland Railway. In order to expedite passage of freight and passengers in the United States, the following American companies maintain ticket and/or freight offices in Winnipeg: Burlington Lines, Chicago Great Western Railway Co., Chicago, Milwaukee, St. Paul and Pacific Railway Co., Chicago and Northwestern Railway System, Chicago Rock Island and Pacific Railway. The Western Divisional headquarters of the Canadian Pacific and the Canadian National Railways are located in Winnipeg. Both of these large transcontinental lines operate extensive roundhouse and repair shops in the area. They maintain large freight marshalling yards, that of the Canadian Pacific being the largest individually owned freight yards in the world, covering 214 miles of track, with a car capacity of 25,000. An average of 135 passenger and freight trains arrive and depart in a day from the Metropolitan Area. Close to 5,000 incoming and outgoing cars are handled every 24 hours. During the grain-moving season the number of cars handled increases to around 8,000 daily.

INTERNAL PUBLIC TRANSIT—

The Winnipeg Electric Company, a privately-owned public utility, maintains a street railway and bus service covering all of Greater Winnipeg. A system of transfers allows continuous connections to destination in any section of the Metropolitan Area. An extensive modernization program has been carried out for the

Courtesy Manitoba Government Travel and Publicity Bureau
OLD FORT GARRY GATE—A Historical Landmark

past four years converting from street car to trolley and express bus service. In that time 72 trolley and 55 motor buses have been placed in service and, to handle power requirements of the new motive equipment, three power substations have been constructed. In order to expedite greater efficiency throughout the transit service, the company has installed a short wave radio system with six transmitting stations, and 26 two-way mobile stations supervising all operating motive units.

TAXICAB SERVICE—

Some 50 taxicab organizations operate in the Metropolitan Area, many of which use two-way communication systems for speedier service.

WAREHOUSING AND STORAGE—

The Winnipeg area, as the largest distributing and warehousing centre in Western Canada, has ample facilities for storage and forwarding of dry merchandise, cold storage and household effects. Seven storage firms handle dry merchandise with charges based either on space or on the unit involved and the type of commodity. Cold storage facilities with freezing and/or holding service are available from five firms. Cold storage charges are based mainly on weight and storage time. Fifteen firms provide storage service for household effects. Eight forwarding agents operate in the Metropolitan Area, offering pool car service in most cases. Forwarding charges are on a flat rate basis depending on the article and size of shipment.

NATURAL RESOURCES AND RAW MATERIALS

The rich Red River Valley land of the surrounding area is a clay loam with an alluvial silt top soil. It produces such major grain crops as wheat, oats, barley and flax. There is also a considerable market gardening industry, which supplies the large urban domestic market and provides vegetables for the canning and food industry. The large dairy herds of the nearby farming districts form a major source of the Metropolitan fluid milk supply for domestic consumption and for ice cream manufacturing.

The varied industrial and processing establishments of the area draw on raw materials from every part of the Province of Manitoba, as well as beyond its borders. Basic materials close at hand include sand, gravel, clay, lime, gypsum and the famous Tyndall limestone for the building and construction industry. Bentonite clay, an important bleaching and clarifying agent in oil refining and a filtering agent in the packinghouse industry, is produced in southern Manitoba and refined in Winnipeg. The metropolitan fur garment industry fabricates fur coats and jackets from skins which are produced, dressed and dyed within the province.

Secondary resources from several basic Manitoba industries are utilized by many allied secondary industries. For instance, breweries in the Metropolitan area depend on the local malting industry for malt produced from Manitoba grown malt barley. Manufacturers of barley products and confections use the product of a nearby sugar refinery. Stock feed processors utilize the valuable meal by-product from vegetable oil processing, while the vegetable oil itself constitutes a main ingredient in such local products as salad oil and margarine. From Manitoba's vast pulp forests come the materials for manufacturing the paper used in the printing, publishing and paper box industries in the Winnipeg area.

CLIMATE

The climate is of the inland continental variety with wide seasonal variations. Summers are warm with cool nights. The winter is fairly cold with a dryness which makes the climate invigorating.

Years on Record 60 **Average Annual Precipitation** 21.19" with 9.62" in growing season

UTILITIES

POWER—

A factor of major importance to modern industry is the supply and cost of power. In this respect the Metropolitan Area of Winnipeg is advantageously situated. Hydro-electric power is supplied to the area by two organizations, The Winnipeg Electric Company, a private corporation, and The City Hydro, a City of Winnipeg utility. The power supplied by these utilities is generated on the Winnipeg River within a hundred miles of Winnipeg. Power shortages are unknown as development of power production has been kept well in advance of industrial and commercial requirements. The cost of hydro-electric power for industrial and commercial use in the Metropolitan Area is among the lowest in Canada due to low cost of generating and the competitive nature of power delivery to the Winnipeg area. Large consumers may receive a special discount subject to negotiations. The following current is available for commercial and industrial services:

Alternating current, single phase, 60 cycle, approx. 115/236 volts.
 Alternating current, three phase, 60 cycle, approx. 236 or 550 volts or higher.
 Direct current, approximately 550 volts.

WATER—

The greater part of the Metropolitan Area is incorporated into the Greater Winnipeg Water District, drawing its supply from Shoal Lake, an arm of Lake of the Woods roughly 100 miles east of Winnipeg. The sections of the Metropolitan Area included in the Water District are:

City of Winnipeg.
 City of St. Boniface (partial)
 Tuxedo (partial)
 Fort Garry (partial)
 St. Vital (partial)
 St. James (partial)
 West Kildonan (partial)
 East Kildonan (partial)

The source of supply provides limitless water without fear of drought conditions. A concrete aqueduct from the source to a point eight miles east of St. Boniface has a daily capacity of 95 million gallons. Actual delivery capacity to the Winnipeg area is 32 million gallons a day. Aqueducts at present under construction will step up delivery capacity to 50 million gallons by the spring of 1951. Average consumption in the Water District approximates 27 million gallons daily. From an industrial standpoint the water supply is considered ideal, there being few industrial processes for which further treatment of the water would be necessary.

SEWAGE—

A central sewage system and sewage treatment plant serves Winnipeg, St. Boniface, St. Vital, East Kildonan and West Kildonan. Raw sewage from these

OLD ST. ANDREW'S CHURCH—A Historical Landmark

areas flows to the central treating plant and is rendered inoffensive before being discharged into the Red River.

FUEL

The industrial fuels used in the Winnipeg area are coal, petroleum and manufactured coke oven gas. Both coal and petroleum are imported from outside the province.

GAS—

The supply of coke oven gas is available only within the City of Winnipeg, and additional small industries can be serviced which operate on a continuous basis for at least 8 hours a day, 20 days a month and 12 months a year. The calorific value of the gas is 510 B.T.U.

COAL—

Roughly 50% of the coal used in Manitoba is Lignite, from the nearby coalfields of Southern Saskatchewan. The remainder is bituminous from Alberta and some anthracite from the United States. The following indicates the approximate calorific value of certain common types in industrial use

| | B.T.U. value |
|-----------------------------------|--------------|
| Lignite | 6500 - 7500 |
| Greenhill Stoker (Bituminous) .. | 12,000 |
| Elkhorn Stoker (Bituminous) | 14,000 |

CENTRAL HEAT—

The downtown business district of the City of Winnipeg is serviced with central heat, supplied by a city-owned utility. In addition, residential areas in the south end of the city are similarly supplied by a private corporation.

FINANCIAL INSTITUTIONS

As the financial centre of Western Canada, the Metropolitan Area has many facilities for the organization and distribution of credit, the majority of which are located in the City of Winnipeg.

BANKS—

Canadian chartered banks, which are subject to strict government regulations and supervision, operate on the branch banking system. These factors minimize banking failures, making the Canadian system one of the most stable in the world. Eight of Canada's ten chartered banks operate a total of 65 branches in the Metropolitan area of Winnipeg. These are:

| | |
|-----------------------------------|-------------|
| Bank of Montreal | 11 branches |
| Bank of Nova Scotia | 3 branches |
| Bank of Toronto | 7 branches |
| Banque Canadienne Nationale | 2 branches |
| Canadian Bank of Commerce | 12 branches |
| Dominion Bank | 8 branches |
| Imperial Bank of Canada | 4 branches |
| Royal Bank of Canada | 18 branches |

In addition, the superintendents or supervisors of these banks for Western Canada, have their headquarters in the Winnipeg area.

These chartered banks perform both commercial and savings functions. Their primary service to business is to supply it with short term funds. In addition to accepting demand and notice deposits from business and the general public, the banks discount, lend and make advances on bills of exchange, notes, stocks, bonds and other negotiable securities. In certain cases banks accept inventories, warehouse receipts and bills of lading as security. Small and personal loans may be made. Interest rates on loans and discounts vary from 3½ to 6 per cent, the legal maximum rate, depending on risk, security and other factors.

The Bank of Canada, the Canadian central bank, maintains a central agency in the City of Winnipeg. The Bank is government owned and controlled, functioning largely as a regulatory body.

The Industrial Development Bank, a subsidiary of the Bank of Canada, has a regional office in Winnipeg. The function of this organization is to provide financial assistance to smaller industrial enterprises which have reasonable prospects of success. The Industrial Development Bank supplements the activities of other lenders, providing capital assistance.

INVESTMENT AND STOCK BROKERS—

Twenty-seven investment dealers and stock brokers provide Metropolitan Winnipeg with a complete investment service, buying and selling bonds and debentures, underwriting new security issues and providing investment information. Ten of these firms have their head office in Winnipeg. Most firms have representation on all the larger stock exchanges of North America.

TRUST, LOAN, MORTGAGE AND FINANCE COMPANIES—

About 70 organizations of this nature are located in the Metropolitan area, of which 13 Trust and Loan companies have their head office in the City of Winnipeg. These firms provide a variety of financial assistance to business men and to the general public. In addition to acting as trustees and agents for individuals and corporations, most of the trust and loan firms provide a savings branch service and a safety deposit department.

INSURANCE—

The insurance service is well developed and some 290 companies are represented, providing service in all fields of insurance. The City of Winnipeg is the head office of three life insurance companies, Sovereign, Monarch and Great-West Life— one of the largest in Canada. There are 16 companies engaged in other forms of insurance business, also with their head offices in Winnipeg.

STOCK EXCHANGE—

The facilities of the Winnipeg Stock Exchange are used mainly in trading in the stocks and securities of local companies.

EDUCATION

A major requisite for progressive, industrial and commercial concerns is the existence of sound academic and technical training establishments. The public schools, colleges and technical establishments in Metropolitan Winnipeg are noted for the maintenance of high academic standards. Excellent instruction is given in all public schools up to and including senior matriculation. The student entering the University of Manitoba, which is situated in Fort Garry, has the choice of a full program in almost all academic and professional lines. Degrees may be obtained in Arts; Science; Commerce; Civil, Electrical and Mechanical Engineering; Medicine, Architecture and Interior Design, Agriculture, Law; Home Economics; Education, Social Work and Theology. Affiliated colleges, St. John's, St. Paul's, United and St. Mary's are located in Winnipeg, and the St. Boniface College in the City of St. Boniface. Teacher training for those with matriculation qualifications is provided by the Provincial Normal School situated in the Town of Tuxedo.

In addition to the public school academic courses, students may take a non-matriculation course consisting of a core of basic academic subjects at the high school level plus commercial and technical courses. A new technical-vocational school for greater Winnipeg is under construction and, on completion, will offer building crafts, needle crafts; industrial arts, distribu-

sy Manitob Gov rn ent ray an Pu ty Burea

MODERN ARCHITECTURE

tion and merchandising; metal crafts; graphic arts; automobile and power crafts; electrical crafts; household science and commercial subjects.

The Manitoba Technical Institute, a provincial trades school located in Winnipeg, is the fourth school of its kind in Canada. It gives a form of post-graduate training to graduates of the vocational high school system.

It also provides pre-apprenticeship and apprenticeship training under the Manitoba Apprenticeship Act. Forty courses are given on an intensive, practical basis, and Trades testing for all designated trades is carried out. Advisory committees representing labour and industry ensure that the method of training and the curriculum keep in line with progress in industrial and business techniques. The Institute is open to all residents of Manitoba.

Training and education are not confined to day classes and facilities for adult education in evening classes and institutes are many and varied. As part of the public extension system the University of Manitoba conducts the Evening Institute, consisting of classes of an academic and practical nature, conducted by competent instructors. Nearly 40 courses are offered ranging from Political Science to Amateur Gardening. The Winnipeg School District also undertakes evening classes for adults in academic, technical and commercial subjects. For this purpose the shop and classroom facilities of eight schools are used and the courses are made available to residents of surrounding municipalities. The Manitoba Technical Institute also maintains classes of evening instruction in all courses. Any pertinent course of instruction requested by a group will be given at the Institute provided the facilities are suitable. The latest addition in the field of adult education is the Manitoba Labor Institute, which offers expert instruction to workers in Economics, Law, Public Speaking and English. This Institute is sponsored by the Provincial Department of Education in conjunction with local Trades Union organizations.

Over and above the public schools and colleges there are many private organizations providing instruction in academic, trades, commercial, recreational and cultural subjects. Private academic schools and junior colleges provide instruction in primary and secondary grades. Nine privately operated business institutes offer regular commercial courses, including stenography, business administration, secretarial, accountancy and business machine operation. Additional private establishments include five hairdressing schools, three schools of costume design and dressmaking, a school of photography, art school, mechanical trades school, nine music schools, three dancing schools and a school of ballet.

LABOR

Employment in the Metropolitan area of Winnipeg was not subject to wartime and post-war fluctuations, and Winnipeg was the major industrial city in Canada showing an appreciable gain (15.9% at July 1, 1948) in employment over the same date at the wartime peak year of 1943.

SUPPLY—

The Census of 1946 showed that the employed force in the Metropolitan area for all occupations numbered 133,537 composed of 95,386 male workers and 38,151 female workers. The employed forces of August, 1949, was estimated at 144,000 male and female. The expansion of manufacturing and commercial establishments, along with the diversity of occupations, has tended to attract large numbers of younger workers from the rural areas and smaller centres. The seasonal aspect of certain industries, i.e. packing, construction, causes a seasonal fluctuation in the supply of certain classes of workers which reaches a maximum peak in the winter months.

In order to channel workers into vacancies, the National Employment Service, a Federal Department, maintains two offices in Winnipeg and one in St. Boniface. In addition there is an executive and professional branch in the City of Winnipeg. The Regional Office of the Prairie Region is also located in Winnipeg. National Employment Service officers carry out the registration of high school students and University students during the winter months for employment in the summer and upon graduation.

TRAINING—

As indicated in the Section on Education, present training facilities and the projected expansion of these facilities are designed to ensure a steady flow of well trained technicians and artisans into the working stream in order that the requirements of expanding industry and of new establishments are satisfied. In this respect both industry and labor are co-operating with the training units to an unprecedented degree. In some cases interested industrialists have set up scholarship funds to assist worthy trainees. This is especially true of the garment industry.

LABOR-MANAGEMENT RELATIONS—

The incidence of strikes for the Metropolitan area is among the lowest for cities in Canada. Excellent employee-management relations are in evidence, not only in the Winnipeg region, but also throughout the rest of the Province. In Manitoba as a whole, time lost through labor disputes has averaged only 1% of the Canadian total for the past 10 years.

BUILDINGS AND SITES AVAILABLE

Recent indications are that industrial and commercial space for lease and sale is becoming more available as expanding plants move into new quarters. Within certain limits manufacturing and storage space is to be had, with or without trackage, at reasonable cost.

Under the proposed zoning regulations of the Metropolitan Town Planning Commission areas for light and heavy industry have been established and excellent manufacturing sites are obtainable in these localities. Vacant areas in the City of Winnipeg are situated on, or close to, trackage, and with sewer, water and power services close at hand for extension. The Municipality of St. James has 230 acres zoned for light and heavy industry, and partially serviced with sewer and water. The City of St. Boniface has set aside 284 acres of industrial land, which has been surveyed for spur trackage. Sewer and water mains are not yet extended into this area. The Municipality of East Kildonan has a large industrial zone bordering trackage and partially serviced by utilities. The Municipality of Fort Garry owns a small area in a central location zoned for light industry. This area is bordered by main-line trackage and highways. The town of Tuxedo has an industrial zone of 1,200 acres bordering trackage, but without sewer and water services. West Kildonan Municipality owns several sites which are suitable for light and heavy industry, a few of which are close to water and sewer services.

RECREATIONAL AND CULTURAL FACILITIES

For the dweller in the Metropolitan area, whether inclined to strenuous athletics or to milder intellectual pursuits, there is ample recreational scope. The facilities range from the Red River with its aquatic, rowing and canoe clubs to the splendid Civic Auditorium in the

THE PAVILION—ASSINIBOINE PARK

heart of Winnipeg, which houses the provincial museum, an art gallery and two concert halls. The larger of these halls, seating over four thousand people, is the scene of the annual Musical Festival, which ranks among the largest in the world. Here also perform many of the world's great artists in the Celebrity Concert Series, and here one may listen to Winnipeg's own Symphony Orchestra. The Winnipeg municipal theatre, the Playhouse, has many forms of entertainment, including vaudeville musical shows and dramatic productions of amateur and professional companies, and performances of the Winnipeg Ballet, one of Canada's leading companies. In the Metropolitan area there are 46 theatres, including four "drive-in" open-air theatres.

All manner of sport facilities, spectator and participant, exist in the district. Ice hockey is the outstanding winter sport, and Greater Winnipeg has several leagues, ranging from playground to semi professional. From the area come many of North America's outstanding hockey professionals. Curling, another favorite winter sport, has many adherents grouped into 20 curling clubs operating in the area. The Annual Winnipeg Bonspiel is considered the world's largest.

In the field of organized family recreation, the Metropolitan area is leading the rest of Canada. There are 39 local community clubs in existence, with several in the process of formation. These clubs have supervised recreation and social activities and many of them have a program of handicrafts and hobby shops for adults and juveniles. Other local organizations which have supplementary or complementary programs to the community clubs are the YMCA, YMHA, YWCA and Home and School Associations, and many church groups.

The Winnipeg district has over 1,100 acres of land distributed in approximately 90 parks and squares. These range in area from a fraction of an acre to the large 290-acre Assiniboine Park, with its lovely flower gardens, lawn tennis courts, cricket pitches, Zoo, Conservatory, Palm House and Refreshment Pavilion.

An extensive list of other facilities would include 12 golf courses, 21 lawn bowling associations, 4 rifle and gun clubs, 5 ski clubs, 6 riding stables, 20 indoor bowling establishments, 6 badminton clubs, 2 roller skating arenas, 2 large indoor ice arenas, 2 race tracks, indoor and outdoor swimming pools, sports fields and many others too numerous to mention.

In addition Greater Winnipeg is well situated with regard to summer resorts on lake and stream, with excellent hunting and fishing.

TOURIST INDUSTRY

The Provincial Bureau of Travel and Publicity Tourist Survey figures for 1949 show that more than 13 per cent of all American tourists entering Manitoba came specifically to visit the Winnipeg Metropolitan area. Estimates for 1950 also indicate that approximately a quarter of a million tourists will have visited the Metropolitan area during their Manitoba vacation.

Accommodation for the travelling public is provided by 71 hotels, with approximately 3,900 rooms. The larger hotels have excellent facilities for convention purposes. Eight tourist camps in the area have a total of 148 cabins.

SOCIAL AMENITIES

HOSPITALS—

Facilities for hospitalization include 10 general hospitals with a total bed capacity of 2,712. These hospitals are staffed by 400 registered nurses, 881 student, probationer and affiliate nurses, 40 practical nurses, 29 full-time doctors, 22 part-time doctors and 90 internes. A new municipal hospital unit recently completed in Winnipeg, contains an additional 208 beds. A provincial sanatorium is located in St. Vital, and a large regional veterans' hospital in the municipality of St. James. The diagnostic facilities in Greater Winnipeg are on a par with the larger North American centres.

LIBRARIES—

The Carnegie Foundation libraries in the City of Winnipeg are available to residents of the Metropolitan area. The libraries consist of a main department and four branches with special boys' and girls' departments in four Winnipeg schools. The Winnipeg library maintains a film department, which used 8,370 movie films in 1950, showing to a total attendance of 271,731 persons at 3,023 individual presentations. There is also a phonograph record library with a yearly circulation of over 10,000. Other libraries in the area include the Provincial Library in the Legislative Building, the libraries of the University of Manitoba and affiliated colleges, and eight rental libraries.

RELIGIOUS ORGANIZATIONS—

Nearly all major religious denominations are represented in the 293 churches and missions in the Metropolitan area, and the varied church organizations play an important part in the social life. In the City of St. Boniface is located the twin-spired Cathedral, made famous by the Poet Whittier.

SERVICE ORGANIZATIONS—

Service leagues, clubs, fraternal and sorority organizations are all very active in performing service to the community in many phases of activity. Approximately 80 such organizations exist in the area, each organization having several branches.

HOUSING—

Following the war the Winnipeg area, in common with the other large urban areas of Canada, experienced an acute housing shortage. Since Jan. 1, 1945, increased building activity has produced a total of 11,625 dwelling units, including wartime housing, integration schemes, apartments and other housing. The yearly production of housing units since January 1, 1945, is as follows:

| Year | No. of Units |
|--------------|---------------|
| 1945 | 1,073 |
| 1946 | 1,966 |
| 1947 | 3,387 |
| 1948 | 2,899 |
| 1949 | 3,144 |
| 1950 | 2,316 |
| Total | 14,785 |

POPULATION AND MARKETS

In total population Metropolitan Winnipeg is the largest of the urban areas of the three Prairie Provinces, and it is the fourth largest urban area in Canada. The 1950 estimate of population is 373,012.

Courtesy Manitoba's Great Trade and Publicity Bureau
WINNIPEG CITY HALL

The data on population as outlined above indicates the immediate retail urban market. The Census of 1941 showed that of the total retail sales in Manitoba that year, 66% were made in the Winnipeg area. However, the importance of the Metropolitan area as a marketing, distributing and manufacturing centre looms large not only in the Province of Manitoba, but throughout the other Prairie Provinces as well.

An indication of this importance is found in the fact that out of 100 United Kingdom manufacturing agencies locating in Western Canada in the last year, over 90% were set up in the Winnipeg district.

COMMUNICATIONS

In all media of communications, Greater Winnipeg is served well. The telephone system in the province is provincially owned and operated. In the Greater Winnipeg district there are 94,551 telephones as of October 31, 1950. Five radio stations operate in the Metropolitan area, four of them in the City of Winnipeg and one French language station in the City of St. Boniface.

| Call Letters | Wattage | Frequency |
|-----------------------------------|---------|---|
| CKSB (French language) | | |
| St. Boniface | 1,000 | 1350 kilocycles |
| CBW (C.B.C. station) | 50,000 | 990 kilocycles |
| CJOB (Standard and F M broadcast) | 250 | 1340 kilocycles Standard 1031 megacycles F. M. |
| CKRC | 5,000 | 630 kilocycles |
| CKY | 5,000 | 550 kilocycles |

TELEGRAPH SERVICE

Telegraph service is supplied by the Canadian National Telegraphs, a subsidiary of the Canadian National Railways, and the Canadian Pacific Telegraphs, a subsidiary of the Canadian Pacific Railway.

For Postal Service the Winnipeg district is within 24 hours postal time of most North American centres and about 48 hours from the United Kingdom.

PUBLICATIONS—

It is generally recognized that the Winnipeg area, with its heterogeneous population, is the Canadian centre for foreign language and the racial group publications. In addition there is a wide variety of weeklies, farm papers, magazines and trade organs issued in conjunction with many phases of activity in the Province. Many of these publications have wide circulation in the Prairie Provinces as well as in other parts of the Dominion.

FURTHER INQUIRIES

The foregoing data show that the cities and municipalities forming the Metropolitan Area of Winnipeg have much to offer the industrialist and businessman who is considering the Western Canadian Market. In a publication of this nature, it is not feasible to give the wealth of detail and specialized data required by many industrial organizations. Interested firms may obtain such information from the Department of Industry and Commerce, Legislative Buildings, Winnipeg, Manitoba, on request.

HENDERSON'S

Winnipeg

Streets and Avenues

1951

This section is presented in condensed form. Full information will be found in the Alphabetical Directory.
Avenues generally run East and West and are numbered under 200 East of Main Street and over 200 West of Main.

Streets generally run North and South and are numbered northwards from Notre Dame and both northwards and southwards from the Assiniboine River

Odd Numbers are generally on the north side of Avenues and east side of Streets.

Even Numbers are generally on the south side of Avenues and west side of Streets.

△ This symbol indicates that a telephone is located at this number on the street.

◆ This symbol indicates that someone living in the house is the owner
